PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL scripting, data mining, and business performance reporting within banking operations. Skilled in analyzing large transactional datasets to identify trends, revenue opportunities, and performance gaps, and in building dashboards and recurring reports that support data-driven decision-making. Strong track record of maintaining accurate, well-governed datasets, validating reports before distribution, and translating analytical findings into clear insights for stakeholders across business functions.

CORE SKILLS

- SQL Scripting & Data Mining
- Power BI & Dashboard Design
- Microsoft Excel (Advanced Analytics & Power Query)
- Root Cause & Trend Analysis
- Stakeholder Reporting & Presentation
- Business & Revenue Performance Analysis
- Daily/Weekly/Monthly Performance Reporting
- Data Quality & Master Data Maintenance
- Process Improvement & Workflow Automation
- Cross-Functional Collaboration

WORK EXPERIENCE

Data Analyst & Revenue Assurance Specialist | *March 2025 – Present*
CRDB Bank – Dar es Salaam, Tanzania

- Analyze transaction and revenue performance data to identify trends, gaps, and revenue opportunities, translating findings into actionable recommendations for management.
- Use SQL/PL-SQL to extract, mine, and analyze large-scale transactional datasets, following established business logic and query standards to ensure accurate reporting.
- Develop and maintain Power BI dashboards and daily, weekly, and monthly reporting systems, validating data accuracy before distribution to stakeholders.
- Designed a Z-score based statistical anomaly detection model in PL/SQL to monitor transaction data and flag irregular patterns for investigation.
- Perform root cause analysis on reporting discrepancies and data quality issues, maintaining accurate and up-to-date datasets.
- Collaborate cross-functionally with Business, Finance, IT, and Operations teams to support process improvement and workflow automation initiatives.

Data Analyst & IT Support | *Jan 2024 – October 2024*
HUB Network Limited – Dar es Salaam, Tanzania

- Developed dashboards and performance analytics insights to improve operational visibility and decision-making efficiency for management teams.
- Automated Power BI and Excel reporting systems, reducing report generation time by 30% and improving data accessibility for stakeholders.
- Enhanced SQL/PL-SQL query performance for faster analytics and improved system responsiveness, enabling more efficient data retrieval and analysis.
- Prepared management reports using advanced analytical techniques, supporting executive decision-making with actionable insights.

System & Data Analyst | *2020 – 2023*
Y4C HUB – University of Dar es Salaam

- Performed statistical analysis to support insights in healthcare and supply chain projects, contributing to data-driven improvements and operational efficiency.
- Designed dashboards and reports for KPI tracking and performance evaluation, enabling stakeholders to monitor progress and make informed decisions.
- Presented findings using clear, business-centered communication to diverse audiences including research teams, management, and external stakeholders.
- Supported research teams in data cleaning, visualization, and insights interpretation, ensuring data quality and accuracy across multiple projects.

IT Support & Data Analyst | *2022*

TTCL – Tanzania

- Conducted operational data analysis to improve workflow efficiency and identify areas for process optimization and cost reduction.
- Ensured data accuracy through rigorous validation and quality checks, reducing errors in reporting systems by 15%.
- Prepared performance reports and supported database troubleshooting to maintain system reliability and minimize downtime.

EDUCATION

Bachelor of Science in Business Information Technology | *2020 – 2023*
University of Dar es Salaam (UDSM)

Advanced Certificate of Secondary Education | *2018 – 2020*
Mwenge High School
